Professional Work and Research Experience

Stanford University Center for Teaching and Learning

Economics Peer Tutor

Stanford, CA, USA

September 2020 – present

- Assist undergraduate students one-on-one in economics and statistics. Tailor instruction to individual student needs.
- Guide students empathetically and patiently in solving homework problems and preparing for midterms.

Stanford University Department of Economics

Research Assistant to Dr. Grant Miller

Remote employment

June 2020 – present

- Collaborated virtually with 2 senior researchers to quantify impact of China's One-Child Policy on family size.
- Conducted regressions and calculated probabilities in Stata to assist with the construction of birth probability tables.
- Designed and created Excel dashboards summarizing regression results to present to senior researchers.

KKR & Co. Inc.

Internal Audit Intern

New York, NY, USA

June 2019 – August 2019

- Assessed the impact of an investment firm's deal management software on transparency.
- Collected and analyzed 100+ documents to understand current software use.
- Created Excel template to help team gather data in future audits.
- Designed summary sheet of findings, incorporating data and process visualizations. Presented findings to senior management.
- Collaborated with 1 other intern to evaluate firm's compliance with Japanese anti-bribery laws.
- Analyzed data on firm's clients, wrote a 1-page brief of findings, and presented brief to senior management.

City of San José, Office of the City Auditor

Intern

San José, CA, USA

June 2018 – August 2018

- Collaborated with a team of 3 auditors to evaluate the effectiveness of City towing services.
- Compared towing contracts across cities to contextualize San José's towing program.
- Mapped and analyzed tow location data in Microsoft PowerBI. Published visualizations in December 2018 report.

International and Extracurricular Experience

Voronezh – New Horizons

Virtual Exchange Participant

Remote project

July 2020

- Selected to collaborate with 1 American and 2 Russian students to solve a problem related to U.S.-Russian cooperation.
- Brainstormed and designed an interactive virtual study abroad website for English-speaking students learning Russian.
- Demonstrated prototype of final product to cross-cultural audience of 20 students and educators in Russian.

Stanford Undergraduate Research Association (SURA)

Co-President

Stanford, CA, USA

September 2019 – June 2020

- Managed 20-member student group fostering a community of undergraduate researchers on campus.
- Overhauled organization recruitment by clarifying SURA's mission, rewriting recruitment emails, and streamlining interview process. Reduced new member turnover for 2019-20 to 0%.
- Collaborated with team members to organize 4 events per quarter, including annual research conference with 100 student presenters; quarterly dinners and mixers; and graduate student mentorship program encompassing 50+ partnerships.
